Introduction of Micro Electrolysis Reduction Water

BY PROFESSOR MEILING WANG

Professor Meiling Wang Earth Environment University of America
Research Fellow of Shandong Academy of Medical Science in China

1. HEALTH AND LONGEVITY

“Health” and “Longevity” are linked together and cannot be separated because “Health” serves as foundation for “Longevity”. That is, human needs a good health at first, then be able to expect “Longevity” which would be in vain without the first. Since “Health” is the most important element of all with regards of fame, high rank, powers, treasure, human pursued “Health” for more than five thousand years all over the world in order to achieve “Longevity” such as Emperors, Kings of many countries, yet their hope could not be achieved was because diseases interferences such as Cardiovascular disease, Cerebral disease, Diabetes, Cancers, etc. These diseases still caused highest fatality rate of today. In order to control the causes of these diseases, “Longevity” would be achieved naturally.

2. TWO FACTORS KILLING HEALTH AND LONGEVITY EXCESS FREE RADICALS AND ACID SUBSTANCES

1 Excess free radicals: Free Radicals of oxygen cause aging of mankind. Thus free radicals are the source of diseases. Therefore, good “Health” and “Longevity” both can be achieved by maintaining adequate level of anti-oxidant in human body.

2 Acid substances: The blood of a healthy person is weak alkaline, pH value is ranging from 7.35 to 7.45. Average people with weak alkaline body is about 10% in total population, majority of people are with pH value below 7.35. As air pollution, abnormal living styles and in-take foods induce acid formations which cause pH value below 7.35, fatigue, memory lost (Atrophy), loose concentration, low back pain and leg pain symptoms occurred. Examine by doctors in hospital test results are shown normal. These will lead into sickness should oneself does not take good care of. While pH value drops down below 7 (Neutral), serious diseases develop. A patient with pH value below 6.9 will become vegetable state, will die with pH value between 6.8 and 6.7. Therefore, medical experts advised that Acid is the source of all kinds of diseases.

3. WATER SOURCE IS THE MOST IMPORTANT ELEMENT OF GOOD HEALTH AND LONGEVITY

According to the report of World Health Organization (WHO), 80% of diseases and one third (1/3) of death are related to drinking of unclean water.

Pollution had been spread not only to well develop and industrial countries yet accelerated rapidly to all over the world which endangered the human lives and all living organisms.

Scientists devoted centuries of efforts for researching the secrets of longevity in Mountain Plum Village, Japan where the life span of villagers in average were over 100 years old, and found that the water source of this village had following characteristics:

- 1 pH value was weak alkaline.
- 2 Possessed stronger osmotic pressure.
- 3 Contained rich minerals.

These indicated favorable water source enhanced health and longevity, while unfavorable water source caused diseases.

Residences of the following countries of the world: Caucasus mountain of Russia, Hunags of Pakistan, Bama county of Guang-Xi in China, Tulufan of Xingang in China are enjoying Longevity, much less diseases, such as cancer, cardio and cerebral problems, most people live through their long predestined natural lifetime.

Above all, Japan holds number one (No.1) highest record of longevity in the world because 63.3% of Japanese families are popularly possessed the equipments of Micro-electrolysis Reduction (MER) of water which renders best source of drinking water and benefits the longest life times bestow.

4. THE CRITERIA OF GOOD WATER SOURCE

There are six (6) criteria of high grade drinking water which are defined by scientists over the world after years extensive research and analysis of the residences of Longevity.

- 1 Does not contain any physical, chemical or biochemical substance of pollution that will be harmful to health.
- 2 Contains adequate minerals and micro-elements in ionization that be readily absorbed and beneficial to human health.
- 3 pH value of drinking water at weak alkaline (pH>8.0) which neutralizes excess acid in human body.
- 4 Molecular cluster of drinking water is small (<10 molecules) with strong dissociation and osmosis which potentiate the activity of human cells.
- 5 Drinking water with rich ions (negative potential below -150mV) which eliminates free radicals in human body.
- 6 With adequate amount of oxygen (about 5mg per liter)

5. MICRO-ELECTROLYSIS-REDUCTION (MER) OF WATER

Micro-Electrolysis Reduction (MER) of water meets the high standard of good quality of water which was recommended by World Health Organization (WHO), and this high standard of water is made by running

Micro-Electrolysis-Reduction water media

through special kinds of natural minerals and natural tourmalines with nanotechnology, MER (globular water) are formed under high temperature, while tap water is running through these MER globules (globular water) will produce hundreds and thousands electrodes which generate hydrolysis, thus tap water is changed into weak alkaline (pH value above 8.0). The negative ion and small molecular groups which clean out the excess free radicals, neutralize excess acid in human body, greatly reduce the diseases development mention above and reach the goal of longevity. Therefore MER of water is a healthy drinking water which extends lifetime.

Since Micro-Electrolysis Reduction (MER) of water produces large amounts of negative ion, (potential up to -400mV), possesses strong reducing power, actively cleans up excess free radicals which cause diseases in human body, besides that, MER of water, whose infrared and magnetic action, break down the chains of large molecular groups, re-arrange the molecular structure became hexagonal state of small water clusters, this unique arrangement full of energetic activity, high affinity, low adhesive action, weak surface tension. All of these elements are best matched the need and vitalize the human cells.

6. THE CHARACTERISTICS OF MICRO-ELECTROLYSIS REDUCTION (MER) OF WATER

- 1 With negative ions (negative potential of -150mV to -450mV), able to clean up the free radicals in human body.
- 2 Of weak alkaline nature (pH value >8.0), able to

neutralize the excess acid elements in human body.

3 With small molecular groups (6 molecules in a group), strong dissociation and osmosis, be rapidly absorbed, vitalize human cells.

4 Contains adequate amount of oxygen (about 5mg per liter).

5 Free of physical substance, chemical substance, or biological pollution which would be harmful to human health.

6 Contains adequate amount of ionized substance and micro-elements which are readily absorbed and beneficial to human health.

7 Safe and clean, ready for drinking directly.

8 Low cost, only one tenth (1/10) cost of other methods to produce MER water or bottle water.

7. FUNCTIONS OF MICRO-ELECTROLYSIS REDUCTION (MER) OF WATER

1 Micro-Electrolysis reduction (MER) of water eliminates the excess free radicals in human body:

It has been proven in medical journal that excess free radicals in blood streams can cause cerebral, cardiovascular diseases, atherosclerosis, aging, diabetes, gastric/intestinal diseases, immunity diseases, and cancer. Since Micro-Electrolysis Reduction (MER) of water possesses negative ion potential of -150mV to -450 mV and strong anti-oxidation action which clean up the excess free radicals in human body. Therefore, people with daily drinking of this kind of water will greatly promote good health and achieve longevity.

2 Micro-Electrolysis Reduction (MER) of water neutralizes acid toxicity:

As Micro-Electrolysis Reduction (MER) of water by nature is weak alkaline (pH value >8.0) which is the best water to neutralize the toxic acid in human body. Therefore, in order to improve the acid media in human body, the simplest and most effective way is drinking large amount of MER of water daily, constant drinking MER of water can adjust the balance of acidity and alkalinity in human body and minimizes the diseases as a result to achieve very good health and longevity.

3 Micro Electrolysis Reduction (MER) of water Vitalizes

human cells: Since MER of water is hexagonal with small groups of molecules which has strong osmosis, dissociation, energy, rapidly penetrates into intracellular cells, vitalizes cellular activity, increases immunity, tissue healing, and total all regenerating vitality. (However, tap water is 13 to 15 molecular groups, pure water is 30 to 40 molecular groups, swampy water in country side is 200 to 300 molecular groups which are large molecular groups.)

4 Micro-Electrolysis Reduction (MER) of water contains rich amounts of Calcium, Magnesium, and Potassium ions that clean up the toxins of metallic substances and facilitate the absorption of Calcium.

5 MER of water also possesses the functions of split up fat and reduces obesity.

6 MER of water has an action to neutralize alcohol and avoid the harmful cause of alcohol.

7 MER of water can eliminate the toxic substance cause of smoking.

8 MER of water is beneficial to pregnant women, growing youth, teenagers by preventing toxic elements and accelerate intelligence developments.

9 Since MER of water is evidenced to neutralize excess acid and cleans up the free radicals in human body, it is obviously beneficial to the following diseases for prevention and supporting therapy such as high salty acid in blood steam, hypertension, cardiovascular disease, cerebral thrombosis, diabetes, gastro-enteritis, stomach problems, constipation, gout, diarrhea, sinusitis, hepatitis, kidney diseases, insomnia, autonomic neuritis, bronchitis, gall bladder stones, urinary stones, Rheumatoid arthritis, nephritis.

10 Increases and restores sexual ability.

11 MER of water is applied in daily use as washing vegetables, rice for cooking, which renders shinny, and adhesive rice with more tasteful because MER of water preserves the vitamin C in vegetable and calcium in rice, while regular people use tap water for washing and cooking will loose these elements by excess chloride in tap water.

12 MER of water is use for making soup will vanish the stink of fish and render more tasteful food.

13 MER of water also can be used to dissolve and remove preservatives, harmful, human additives, insecticide

which is adhesive on vegetables and fruits, even the additives in

pre-packed soy bean cake can be removed by immerse in MER of water for two minutes and avoid harmful substance in human body.

14 MER is used for cultivate fish which energizes the fish to appear more vivid and energetic states.

15 MER is employed to feed all kinds of animals, pets and living cells such as dogs, cats, panda which will be well grown with active, joyful and energetic presentations.

8. THE USA SUNLIGHT DIRECT DRINKING WATER MACHINE SERIES

Scientists of USA Sunlight Pharmaceutical Co. Ltd. spent more than ten years in extensive and deep research covering five areas of people enjoying the longest life in the world and used 20 special kinds of natural minerals and tourmaline of those areas for materials incorporated with nanotechnology to invent and manufacture a series of products which are including MER Direct Drinking Water Machine, MER Direct Drinking Cup, and MER Shower with the Cores of these products are the MER Water Sphere. These products have received three special

Feature of the U.S.A. Sunlight direct drinking water machine series

patents, and research has been listed in the Department of Industrial Development of United Nations, permit of MER Sphere was obtained by Shandong Anna Technology and Develop Co. Ltd.

9. THE RESULTS OF CHINICAL TRIALS OF MER OF WATER

1 30 patients with gastro-intestinal problems were tested at Guangzhou No. 1 Marital Medical University. For those who drank MER of water for 3 weeks, their symptoms of stomachache, stomach gas, stomach acidity, food phobia, vomiting were obviously reduced. The effective rate is over 90%.

2 15 patients with original high blood pressure, 13 patients with diabetes, and 18 patients with high triglyceride were tested in Shanghai No. 1 Medical College. For those who drank the MER of water for 6 months:

- Their blood pressure was reduced from 160/94 mmHG to 139/83 mmHG;
- Their blood sugar was reduced from 8.44 mmol/L to 6.05mmol/L
- Their triglyceride was reduced from 2.13 mol/L to 1.45mmol/L
- Their overall cholesterol was reduced from 6.43 mmol/L to 4.31 mmol/L

3 29 patients with high thrombophlebitis disease were tested in Shanghai No. 2 Medical College. For those who drank MER of Water for 3 months, their blood viscosity, thrombosis elements, fiber dissolution standard and blood platelet cohesion ration all decreased to obvious extent.

After drinking MER of Water, the red blood cells and blood platelets in human body were free from cohesion, the blood cohesion ability was improved, and the damages in the internal surface of the blood vessels were healed. These factors furthermore improve the blood circulation and micro infusion, as well as reduce the opportunity of thrombosis. They are all beneficial to the prevention of heart and brain thrombus.

微電解還原水知識介紹

王美岭
美國地球環境大學 教授
山東省醫學科學院 研究員

一、健康與長壽

"健康、長壽"這兩個詞語是不可分離的，健康是長壽的基礎，長壽必須以健康為前提。離開了健康而空談長壽是沒有意義的。

健康長壽是每個人追求的目標，人的一生一世，唯有無病無痛的健康身體才為幸福。不論你權高位顯，還是家藏萬貫，若長期呻吟病床，甚至夭折者，任其巨富權勢亦將付東流。權力、地位是暫時的；榮譽、稱號是過去的；金錢、財富是身外的；唯有健康是自己的。如果缺少健康這一條件，一切都將劃上休止符，沒有健康，就沒有一切。健康高於一切。因此，每一個明智的人，必須關愛健康，珍惜生命。

那怎樣才算得上長壽呢？古人認為能做到"盡其天年"就是長壽。所謂天年，今天叫做自然壽命，那麼人的自然壽命是多少呢？

普代文學家嵇康在《養生論》中說："上壽百二十，古今所同"，認為人的最高壽命在120歲左右，這恰好與現今科學家的看法基本一致。

人為什麼不能長壽呢？主要有四種疾病、即心血管疾病、腦血管疾病、糖尿病和腫瘤。造成這四種疾病的原因有以下兩大殺手，只要控制這兩大殺手，即可減少以上四種疾病的發病率，延年益壽。

二、影響健康和長壽的兩大殺手：過自由基和酸性體質

1 過剩自由基

人體的衰老是由於過剩的自由基所致，自由基是萬病之源，如果體內能維持適當水平的抗氧化劑，可以延緩衰老和延長人的壽命。

2 酸性體質

健康人的血液是呈弱鹼性的，大概pH值在7.35到7.45之間，為鹼性體質。隨著體外環境污染及不正常生活及飲食習慣，使我們的體質逐漸轉為酸性。鹼性體質者大約只佔總人群的10%左右，更多人的體液的pH值在7.35以下，酸性體質者常會感到身體疲乏，記憶力衰退，注意力不集中，腰酸腿痛，到醫院檢查又查不出什麼毛病，如不注意改善，就會繼續發展成疾病。

當人的體液pH值低於中性7時，就會產生重大疾病，下降到6.9時，就會變戶成植物人，如只有6.8~6.7時，人就會死亡。因此，醫學專家提出：人體的酸性化是"百病之源"。

三、健康長壽的關鍵在於水

據世界衛生組織（WHO）報導：80%的疾病和1/3的死亡率與飲用受污染的水有關。污染並不限於特定的先進國家或工業國家，而是在全球加速地擴大，這使得締造我們生命的地球正瀕臨著重大危機。

日本有個聞名世界的長壽村—山梨村，居民平均壽超過100歲以上。科學家歷經幾個世紀的研究，發現該村的水有著神奇的特徵：pH值呈弱鹼性；具有較強的滲透力；含有豐富的礦物質。這說明好水可以決定壽命，疾病和健康的關鍵在於水。

世界上的一些長壽地區如蘇聯的高加索、巴基斯坦的芬扎、廣西的巴馬縣、海南省、新疆的吐魯番，長壽地區的人不僅長壽，很少發現癌症病人和心腦疾病患者，其多數是自然死亡，科學家們經過多次深入長壽地區論證，最終得出結論：長壽地區人長壽的奧秘主要隱藏在長壽村的水中，該水具有弱鹼性離子水的特點。

日本電解水機已普及到63.3%的家庭，因此日本為世界第一長壽國，其平均壽命在81.3歲，居世界之冠。

四、好水的標準：

世界各地科學家根據對世界長壽地區的大量調查結果進行分析，提出優質飲用水的6條標準：

- 1 不含有害人體健康的物理性、化學性、和生物性污染。
- 2 含有適當的有益於人體健康、並呈離子狀態礦物質及微量元素，適合人體吸收。
- 3 水的PH值呈現弱鹼性 (PH>8.0) 能中和人體內多餘的酸素。
- 4 小分子團 (<10個分子)，溶解力和滲透力強，能激活人體細胞。
- 5 豐富的負離子（負電位< -150mv），能消除體內多餘自由基。
- 6 含有適量的氧（5毫克/升左右）。

五、微電解還原水

微電解還原水符合世衛生組織（WHO）推薦的好水標準。微電解還原水以特種天然礦石和天然電氣石為原料，採用納米技術，在高溫狀態下融合製成微電解還原水球，當水通過這種還原水球時，可形成數萬對電極，即對水產生電解作用，使水變為弱鹼性，負離子，小分子團。微電解還原水是健康水，它可以清除人體內過剩的自由基，中和人體多餘的酸素，減少以上四大疾病的發病率，達到長壽的目的。

以世界五大長壽地區的二十種特種天然礦石和天然電氣石為原料，採用納米技術，在高溫狀態下融合製成微電解還原水球，當通過這種微還原水球時，可形成數萬對電極，即對水產生電解作用，使水變為弱鹼性，Ph值在8.0以上，中和人體內多餘的酸素。由於微電解的作用使水產生大量的負離子，形成了高達-400Mv的負電位，具有極強的還原性，能清除體內過剩的萬病之源的自由基。同時由於微電解、遠紅外及磁場的作用，使大分子團水的分子鏈斷裂，水分子的結構重新排列組合，形成充滿活力的小分子團的六環水，這種狀態的水分子排列整齊，內聚力強，分子間的吸附力小，表面張力小，是最接近人體細胞的水，可以激活人體細胞。

微電解還原水球

六、微電解還原水的特點

- 1 負離子（負電位為 - 150MV ~-450MV），清除人體過剩的自由基。
- 2 弱鹼性 (PH>8.0)，中和人體內多餘的酸素。
- 3 小分子團（6個分子組成），溶解力和滲透力強，吸收快，激活人體細胞。
- 4 含有適量的氧（5毫克/升左右）。

- 5 不含有影響人體健康的物理性、化學性和生物污染。
- 6 含有適量當的有益於人體健康、並呈離子狀態物質及微量元素，適宜人體吸收。
- 7 安全衛生，可以直接飲用。
- 8 成本低，制水成本只有一般電解水或桶裝水的1/10。

七、微電解還原水的功效

1 微電解還原水可以消除人體內的過剩自由基

醫學證明，人體患病、人體老化原因之一與血液中自由基增多有關，過多的自由基沉積種在血管壁易引發動脈粥樣硬化，長期下去必然導致某些臟器病變，進而危及全身，產生其他繼發疾病，如心腦血管疾病、糖尿病、胃腸道疾病、免疫性疾病、癌症等疾病。微電解還原水具有負電位（-150mv~-450mv），它具有很強的抗氧化能力，可以消除體內的過剩的自由基，長期飲用延年益壽。

2 微電解還原水可以中和體內的酸毒

預防和改善酸性體質，最簡單最有效的方法就是大量飲用微電解還原水，由於微電解還原水呈弱鹼性（PH>8.0）可以中和人體的酸毒，長期飲用可調節人體體液的酸鹼平衡，減少疾病，健康長壽。

3 微電解還原水可以激活人體細胞

微電解還原水是小分子團為六分子團水（自來水是13-15分子團水，純淨水是30-40分子團水，鄉間的死潭水200-300個分子團水），滲透力強，溶解力好，有較強的活性與能量，能迅速進入細胞內，激活細胞，增強組織細胞活力，提高人體的代謝能力、免疫能力、自愈能力、機體組織的再生能力，以及人體的整體生命活力。

4 微電解還原水中含有豐富的鈣、鎂、鉀離子，可以清除機體內有毒的金屬物質，補鈣更容易。

5 微電解還原水可以分解脂肪，具有減肥的作用。

6 微電解還原水可以解酒，消除酒毒。

7 微電解還原水可以解煙毒。

8 微電解還原水可以使孕婦預防妊娠中毒，對成長期的青少年，可促進智力發展。

9 對因酸素過多和過剩自由基導致的高血脂、高血壓、心臟病、腦梗塞、糖尿病、胃潰瘍、口腔潰瘍、便秘、痛風、腹泄、過敏性鼻炎、肝臟病、腎臟病、失眠、自律神經失調、氣管炎、腸炎、膽結石、尿路結石、風濕、關節腰痛、前列腺炎等疾病有預防和補助治療作用。

10 提高和恢復性功能。

11 用於洗菜、淘米、煮飯。自來水中的餘氯會破壞蔬菜中的維生素C，微電解還原水不但會避免此現象發生，而且可以防止鈣質流失。用於淘米煮飯可煮出有光澤、黏性佳的米飯。

12 用於煲湯，可去腥味，使湯變得美味可口。

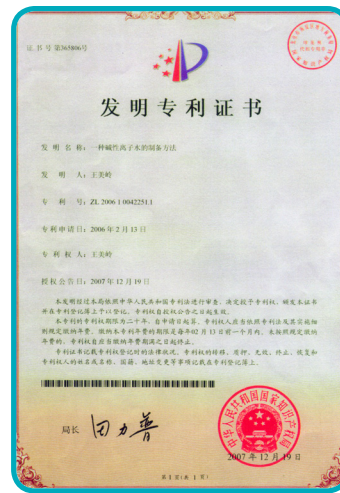

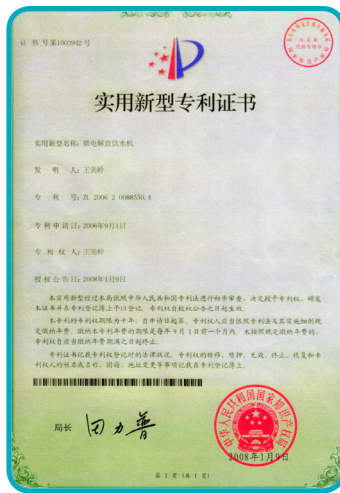

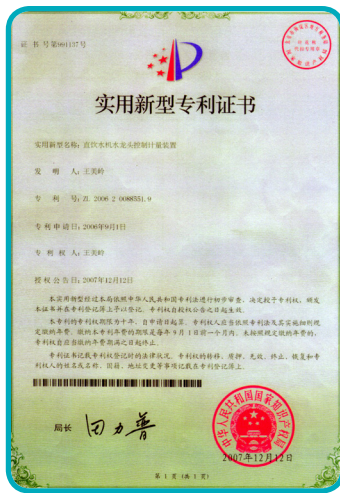

13 浸泡蔬菜水果，可去除有害的添加劑及水果、蔬菜表面的衣藥有害物質。盒裝豆腐只要用電解還原水浸泡兩分鐘左右就可以去除其中的添加劑，避免對人體的傷害。

14 用於養魚，顯得活潑，生命力旺盛。

15 用於所有動物飲用水，例如狗、貓、大熊貓等，會使動物變得有精神。

八、美國陽光系列直飲水機

美國陽光藥業有限公司的科學家經過十幾年的潛心研究，用世界五大長壽地區的二十種特種天然礦石和天然電氣石為原料，採用納米技術發明了微電解還原水球，進而研製成微電解直飲水機、微電解直飲水杯和微電解淋浴器等系列產品。該研究已列入聯合國工業開發署開發項目。該系列產品獲得三項專利。微電解還原水球已由山東安納科技開發有限公司生產獲得衛生許可。

九、微電解還原水的臨床驗証

- 1 廣州第一軍醫大學，通過30例有腸胃病患者，飲用微電解還原水三周，對於腹痛、腹脹、返酸、噯氣、厭食、嘔吐症狀明顯減輕，有效率在90%以上。
- 2 上海市第一醫學院，對原發性高血壓15例、糖尿病13例、高血脂18例患者，經飲用微電解還原水六個月後，
 血壓從160/94mmHG降到139/83 mmHG，
 血糖從8.44 mmol/L 降為6.05 mmol/L，
 甘油三脂從2.13 mmol/L 降為1.45 mmol/L，
 總膽固醇從6.43mmol/L 降為4.31mmol/L。
- 3 上海第二醫科大學，觀察29例高凝血症患者，飲用微電解還原水三個月後，血黏度、凝血因子、纖維指標及血小板凝集率均有不同程度下降。

飲用微電解還原水後紅細胞及血小板解聚，凝血改善以及血管內皮損害的恢復，進一步改善血液流通及微循環灌注，減少了血栓形成的機會，因而有利於對心、腦血管栓性疾患的防治。

安纳牌微电解还原水杯

美国阳光系列
专利号：2006100422511 批准文号
鲁卫水字【2006】SO11号

一、原理

以世界五大长寿地区的二十种特种天然矿石和天然电气石为原料，采用纳米技术，在高温状态下融合制成微电解还原水球，当水通过这种还原水球时，可形成数万对电极，即对水产生电解作用，使水变为弱碱性，PH值在8.0以上，中和人体内多余的酸素。由于微电解的作用使水产生大量的负离子，形成了高达-400mv的负电位，具有极强的还原性，能清除体内过剩的万病之源的自由基。同时由于微电解、运用红外及磁场的作用，使大分子团的分子链断裂，水分子的结构重新排列组合，形成充满活力的小分子团的六环水，这种状态的水分子排列整齐，内聚力强，分子间的吸附力小，表面张力小，是最接近人体细胞的水，可以激活人体细胞。

二、特点

- 1 负离子（负电位为-150mv~-450mv），清除人体过剩的自由基。
- 2 弱碱性（PH>8.0），中和人体内多余的酸素。
- 3 小分子团（6个分子组成），溶解力和渗透力强，吸收快，激活人体细胞。
- 4 可以随身携带，立即生产健康水的迷你水机。
- 5 用我们发明的还原素激活，可终生使用，不用换滤芯。
- 6 比昂贵的电解水更优越、不用电、不产生酸水，而且高含钙镁钾锌硒锗铁等超过70种以上的人体必需的矿物质微量元素，比普通电解水更有营养。

三、用法

- 1 水源:可以是纯净水、矿泉水、矿化水、烧开的自来水、桶装水、瓶装水。
- 2 方法:将以上水源倒入杯中，5分钟即可饮用。
- 3 用量:一天应饮用2升水，起床后，上午，下午，傍晚，睡觉前各一杯。
- 4 再生:每半年用附带的微电解还原水球还原素2片（纯天然）放在杯内，加入开水半杯摇动5分钟，放置8小时（最好过夜）后，杯内水倒掉，用水冲洗2次，即可恢复活性，终生使用，不用更换滤芯。

喝好水

保健康

Micro-Electrolysis Reduction (MER) of water CUP

1. PRINCIPLE

Micro-Electrolysis Reduction (MER) of water meets the high standard of good quality of water which was recommended by World Health Organization (WHO), and this high standard of water is made by running through special kinds of natural minerals and natural tourmalines with nanotechnology, MER (globular water) are formed under high temperature, while tap water is running through these MER globules (globular water) will produce hundreds and thousands electrodes which generate hydrolysis, thus tap water is changed into weak alkaline (pH value above 8.0). The negative ion and small molecular groups which clean out the excess free radicals, neutralize excess acid in human body, greatly reduce the diseases development and reach the goal of longevity. Therefore MER of water is a healthy drinking water which extends lifetime.

Since Micro-Electrolysis Reduction (MER) of water produces large amounts of negative ion, (potential up to -400mV), possesses strong reducing power, actively cleans up excess free radicals which cause diseases in human body, besides that, MER of water, whose infrared and magnetic action, break down the chains of large molecular groups, re-arrange the molecular structure became hexagonal state of small water clusters, this unique arrangement is full of energetic activity, high affinity, low adhesive action, weak surface tension. All of these elements are best matched the need and vitalize the human cells.

2. THE CHARACTERISTICS

- 1 With negative ions (negative potential of -150mV to -450mV), able to clean up the free radicals in human body.
- 2 Of weak alkaline nature (pH value >8.0), able to

neutralize the excess acid elements in human body.

- 3 With small molecular groups (6 molecules in a group), strong dissociation and osmosis, be rapidly absorbed, vitalize human cells.
- 4 Can be carried with you and readily used.
- 5 Use the activated substance which we invented, do not need any change, and lasts for life time.
- 6 Far better than expensive electrolyzed water. Do not need electricity, do not produce acidic water, more nutrition.

3. USAGES

- 1 Water source: Can use pure water, mineral water, spring water, boiled tap water and bottle water.
- 2 Procedure: Pour the above water into the cup, drink it after 5 minutes.
- 3 Quantity: 2 liters per day. (after rise, in the morning, afternoon, evening and at bed-time, drink 1 cup each time).
- 4 Regeneration: Attached to cup with 2 pieces Micro-Electrolysis Reduction substance (natural substance) which is used for putting into cup every half a year, add half cup boiled water, shake 5 minutes, stand for 8 hours (best over-night), then discard the water, rinse with water twice. Thus will activate the function and use for life time. Do not need to change filter.

1

AN American Sunlight Series

**聚丙烯熔喷
P.P.F**

- 去除原水中之泥沙、悬浮物、胶体、铁锈、微粒等。
- 高孔隙率的介质允许大流量通过，纳污能力强，压降低。

⊙ 警告：适用于城市自来水，不安全的或对水质不了解的场合不适用。

- Removal of sand, Silt, Suspended Substance, Colloid, Rust and Particle in source water.
- Major series of high efficiency, low pressure drop special liquid filtering cartridges.

⊙ **CAUTION:** For drinking water applications, do not use where the water is unsafe or with water of unknow quality.

Manufactured by Sunlight Pharmaceutical Co., Ltd., USA
Exclusively distributed by Everglory Mediproducts, Inc., USA

2

AN American Sunlight Series

**活性炭纤维滤芯
Activated charcoal textile fiber filter element**

- 吸附容量大：对有机气体恶臭、腥臭物质、水溶液中的无机物、燃料、有机物质、重金属离子、对微生物及细菌有优良的吸附能力。对低浓度吸附质的吸附能力特别优良。
- 去除水中之异色、异味、余氯比颗粒和粉状活性炭大20-30倍。

⊙ 警告：适用于城市自来水，不安全的或对水质不了解的场合不适用。

- The loading capacity is big: To the organic gas odor, the stench material, the peroxide solution inorganic substance, the fuel, the organic matter, the heavy metal ion, have the fine adsorptive capacity to the microorganism and the bacterium. Is especially fine to the low concentration adsorption archery target adsorptive capacity.
- Different color, peculiar smell, spare time chlorine of dislodging in the water is 20-30 times bigger than pellet and powdered activated carbon.

⊙ **CAUTION:** For drinking water applications, do not use where the water is unsafe or with water of unknow quality.

Manufactured by Sunlight Pharmaceutical Co., Ltd., USA
Exclusively distributed by Everglory Mediproducts, Inc., USA

3

AN American Sunlight Series

**中空丝膜超滤
HOLLOW-FIBER MEMBRANE ULTRAFILTER**

- 采用现代过滤新技术——中空纤维超滤技术，浓缩和分离自来水中之大分子物质或胶体物质，截留细菌和热源。
- 更深层次降低浊度，有效去除细菌 (>99.9%)，使饮水更卫生、更安全。

⊙ 警告：适用于城市自来水，不安全的或对水质不了解的场合不适用。

- Applied cutting age Filterology-Hollow fiber filtration concentrates particles, colloids and separates them from pure water.
- It also filtrates bacteria, and infections virus fever completely remove bacteria (>99.9) provides more healthy safely drinking water.

⊙ **CAUTION:** For drinking water applications, do not use where the water is unsafe or with water of unknow quality.

Manufactured by Sunlight Pharmaceutical Co., Ltd., USA

4

AN American Sunlight Series

**微电解还原水生成器
Micro-electrolytic Reduction Water Produce Machine**

- 美国阳光药业公司科学家12年精心研究成果,世界首创。
- 以世界五大长寿地区的20种特种天然矿石和天然电气石为原料,采用纳米技术研制而成对进入的自来水进行微电解,使之呈鱼眼状($<100\text{nm}$, 一种不用电的电解水)。
- 水呈弱酸性($\text{PH} \approx 7.8$) 水分子最小(6^+ 分子组成),溶解力和渗透力强,吸收快;含有适量的氧(6毫克/升);含有适量的有益于人体健康,并呈离子状态物质及微量元素,适宜人体吸收。
- 还原水量 ≥ 6 立方。
- 批号:微卫水字【2006】S011号 专利:200610042251.1
- ⊙ 警告:适用于城市自来水,不安全的或对水质不了解的场合不适用。
- ⊙ This is the objective result that scientists of Sunlight Pharmacy U.S.A. Lao spent 12years to researched,initiated in the world.
- Use 20 kinds of special purely natural tourmalin as material,adopt isosomere technology to make the running water which comes in to the micro-electrolytic reduction, causes it to assume the negative potential($<10\text{nm}$),it's a kind of electrolysis water without electricity.
- The water PH value assume the weak basicity(>7.8),the hydrons group is small (6 molecular compositions),with better osmotic and resolvent ability,absorbs quickly; includes the right amount of oxygen(5mg/l),includes the ion shape matter and little chemical element which is suitable and beneficial to human body health, easily to absorb.
- The volume of reduction water ≥ 6 cure meter.
- Lot NO., LU WEI SHUIZI [2006] S011号 Patent NO..200610042251.1
- ⊙ **CAUTION:** For drinking water applications,do not use where the water is unsafe or with water of unknow quality.

5

AN American Sunlight Series

**后置抑菌活性炭
AFTER-TREATMENT ACTIVE CARBON CARTRIDGE**

- 进一步深层次去除异味、余氯和抑菌，吸附水中的有机物及化学物质，彻底净化浊度，调节水PH值。
- 使饮水更卫生、更好喝

⊙ 警告：适用于城市自来水，不安全的或对水质不了解的场合不适用。

- Absorb the odor from the air bag of the pressure tank.in the absorbed water the organic matter and the chemical substance, purify the turbidity thoroughly, the accent save water the PH value.
- Well tasty.

⊙ **CAUTION:** For drinking water applications, do not use where the water is unsafe or with water of unknow quality.
